PROJECT SCOPE STATEMENT

Project Name	Textual Connection

Project Deliverables

User Login	Users should be able to login and see what information is relevant to them. That is they should see books, posts, and categories relevant to them.
Post classifieds	Users should be able to easily post their books in an efficient manner, with a description of the book.
Search / Categories	Users should be able to search or specifically filter for the items they are looking for. i.e price, genre, name etc.
Viewing classifieds experiences	Users should be able to view many posts and then choose ones to see more details about.
Chat/Email System	Users should be able to contact other users, either by an email like system or instant chat.
Notifications	Users should be notified of changes to their posts, new messages, new posts etc.

Project Exclusions

- Everything not a book/textbook shouldn't be supported in a post.
- Users outside of Regina should not be specifically designed around.
- No sponsored ads
- No forums/comments
